What will happen next?

Downing & Lahey Mortuaries & Crematory will send a care professional to your loved one's location as soon as we are notified. In most cases it takes less than an hour for us to arrive at any location in the Wichita area. Your loved one is then transferred directly into our care.

Your loved one never leaves our care.

A funeral director will be dedicated to assisting you and your family. He or she will contact you to establish a time to meet at the mortuary and begin making arrangements. During the arrangement conference we will take care of filing all necessary paperwork, work on service details, etc.

We are here to help.

Please call us if you have additional questions or need immediate assistance at any of our numbers, day or night.
